GROUP OFFERING

The Markets dictate the reference model for SCAI Group’s go-to-market business domains towards clients. They complement each other, and the resulting blend is a significant portion of production value.

Competence Centers define the Group’s offering of a technology paradigm or a specific business area and are cross-market, with possible transferral of one activity to various Competence Centers.

PEOPLE

The principal SCAI Group resource is people. People bring value, brand identity and are the key to achieving business success. This is why the Group encourages and promotes attraction, engagement and growth policies.

1450+
EMPLOYEES

Innovation in SCAI Group originates from people and their freedom to express potential. We involve those with a solid technical background and strong motivation for continuous growth who can find space for advancement within the company.

We remain convinced of the importance of attracting women into the ICT sector to encourage reciprocity between genders and enrich thought processes.

Ensuring constant skill development permits us to grow in all the technology-driven sectors where we are active. Every certification awarded is another step towards achieving business excellence.
